1. INTRODUCTION

The Sacramento Regional County Sanitation District (Regional San) and Sacramento Area Sewer District (SASD) provide wastewater collection, conveyance, and treatment services to over one million residents in the greater Sacramento region.

Regional San

In 1973, the County of Sacramento and Cities of Sacramento and Folsom coordinated to form Regional San, which assumed responsibility for regional wastewater conveyance and treatment. Regional San built the Sacramento Regional Wastewater Treatment Plant (SRWTP) near Elk Grove and a vast interceptor conveyance system to link the area's local sewer collection systems to the treatment plant. The SRWTP began providing service in 1982.

Regional San's mission statement is as follows:

“Regional San protects public health and the environment by conveying, treating, and recovering resources from wastewater responsibly and cost-effectively.”

SASD

SASD is a sewer collection utility providing service to more than one million people in the Sacramento region. SASD's service area includes the unincorporated areas of Sacramento County; the cities of Citrus Heights, Rancho Cordova, and Elk Grove; and portions of the cities of Folsom and Sacramento. SASD serves residential, commercial and industrial customers.

SASD owns and operates thousands of miles of sewer pipes and is responsible for the operations and maintenance of these sewer pipes. Sewage collected in the SASD system flows into the Regional San interceptor system, where it is conveyed to the SRWTP.

SASD's mission statement is as follows:

“To protect public health and the environment by efficiently and effectively collecting sewage for our community.”

2. BACKGROUND

Employee coaching services have been and continue to be made available to Regional San and SASD through the Executive Coaching Ambassador Program, administered by Sacramento County's Training and Organizational Development Office in the Department of Personnel Services. There has also been individual usage of employee coaches by Regional San and SASD via separate contracts established by the Districts. To date, the utilization of coaching services has largely been driven by employees whom have expressed interest in receiving coaching services. Thus, it has been determined that there is a benefit for the Districts to formalize coaching support offerings to achieve broader usage and impact for both individual employees and the Districts.

Regional San and SASD's intent is to award contracts to two to three coaches, with associated maximum compensation value not to exceed \$10,000. Regional San and SASD may elect to amend the awarded contracts as needed. Profiles containing background

information for the awarded coaches will be made available to employees interested in making the engagement. An initial meeting between coach and employee will take place to determine suitability.

3. OBJECTIVE

Utilize employee coaching services for development of employee leadership and management skills, behaviors, and approaches, lending to Districts’ ability to achieve maximized business results.
