GRADE K	**Learning Goals:** Students will become familiar with a sampling of well-known children's books related to pets, specifically dogs. Students will know that stories using characters of animals (if doing people things) are considered fantasy stories. Students will be able to differentiate between a story about a dog from an informational book about a dog (non-fiction). Learning Activities: Animal Books (dogs)/Fictional, make-believe stories vs. realistic non-fiction informational books. Explain that fiction books are stories that are make-believe with characters. Non-fiction books are useful, helpful informational books. The stories this week deal with dogs.
