The 6th-grade classes are selling spring flowers for a fundraiser.

The sale will run the last week of school before spring break.

"Last year we sold 200 flowers," said Mr. Johnson. "I think this year we can do better. Let's set a goal to sell 250 flowers."

They can buy flowers from one of these florists:

Hannah's Florist will sell us a mix of flowers. They charge \$128 for 65 flowers. You can only buy in lots of 65.

Michael's Flowers will also sell a mix of flowers. They charge \$40.80 for 20 flowers. They only sell in lots of 20.

Flowers & Bulbs will sell in lots of 100 flowers, for a total of \$180.

If you are in charge of buying the flowers, based solely on price, what would you buy?

Megan is not happy. She doesn't think price should be the only driver of what they buy. What else should be considered to have a successful spring flowers fundraiser?
