## Method A Measure Your Finger

### Sizing Tips

Measure your finger at the beginning of your day to avoid incorrect measurements. More sizing mistakes are made by ordering rings too large rather than too small.

1. Cut out the ring sizer
2. Cut a slit for Slot "A"
3. With the numbers facing out, wrap the sizer around the finger where the ring will be worn.
4. Pull the pointed end Tab "B" through Slot "A" until the sizer is snug, make sure to allow size for the knuckle. If your knuckle is a lot larger than the base of your finger, select a size in between the two.

5. The number aligned with Slot "A" is your ring size.
6. If the measurement lands between two numbers, your size is a half size. Ex: Between 5 and 6 ring size: 5.5

## Method B Measure a Ring that fits

1. Select a ring that properly fits the intended finger.
2. Place the ring on top of the circles below until the inside edge of the ring matches the outside of the circle. See example.
3. Comfort Fit Ring Tip: If the ring is a comfort fit design, match circles to the contoured edge of the inner surface of the ring.

Example:
