### SCOPE OF REVIEW

☒ Desk Review   ☒ Subject Inspection   ☐ Comp Inspection   ☐ Verification of Data

Comments: This review is intended to conform to Standard 3 of the Uniform Standards of Professional Appraisal Practice ("USPAP"), promulgated by the Appraisal Standards Board of the Appraisal Foundation, which sets the guidelines for an appraisal review. In reviewing this report, we will verify that the report being reviewed conforms to the appraisal standards required by Title XI of FIRREA (Federal Financial Institutions Reform, Recovery, and Enforcement Act of 1989), USPAP, and the Office of the Controller of the Currency ("OCC").

## **INTENDED USE OF REVIEW**

This review is intended to analyze the described appraisal report to verify the original appraiser's valuation.

## **PURPOSE OF THE REVIEW**

The purpose of this review is to evaluate the appraiser's compliance with USPAP requirements and the client's appraisal requirements.

## **COMPETENCY OF REVIEW**

The reviewer has both the knowledge and experience to competently perform this review.

## **DEFINITION OF MARKET VALUE**

"Market Value" is the amount in cash that a well-informed buyer, willing but not obliged to sell it, would accept, taking into consideration all uses to which the property is adapted and might in reason be applied.

## **SCOPE OF REVIEW:**

The scope of this review included the following procedures:

1. Reading and analyzing the appraisal report;
2. Checking quality and appropriateness of market data in the appraisal;
3. Checking for omitted data or techniques;
4. Checking reasonableness of analysis, adjustments, and conclusions;
5. Checking for conformity to USPAP standards;
6. Checking mathematics for accuracy;
7. Reconciliation of discrepancies and errors identified with the appraiser.

## REVIEWER'S SUMMARY AND COMMENTS

This is a narrative appraisal report. It was received for review on December 3, 2018.

The subject property is a 6.2 acre vacant site. The powerline traverses the site north to south and encumbers .51 acres. The appraisal question is to estimate the diminution in value due to the powerline easement.

In the "Before" land sales comparison approach, five sales ranging in price from \$77,963 per acre to \$131,988 per acre were considered and analyzed. The final indication of value by this approach of \$620,000 is reasonable. The "After" land sales comparison analysis indication of value of \$595,000 is also considered reasonable. The diminution in value of \$25,000 is considered reasonable and is adequately supported.

I concur with the appraiser's conclusion of diminished value due to the powerline easement of \$25,000.

In the reviewer's opinion, this appraisal report is:

Acceptable "As Is"	<u>  x  </u>
Acceptable as amended by Appraiser	<u>      </u>
Acceptable as amended by Reviewer	<u>      </u>
Unacceptable	<u>      </u>

Overall quality of the appraisal report (1 Lowest; 5 Highest):

1. Poor	<u>      </u>
2. Below Average	<u>      </u>
3. Average	<u>      </u>
4. Above Average	<u>  x  </u>
5. Very Good	<u>      </u>

If you have any further questions, please contact me.

Sincerely,

Carl R. Westman, *Appraiser and Consultant*  
Certification No. 1100963

## CERTIFICATION

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in the report are true and correct;
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analysis, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of the work under review and no personal interest with respect to the parties involved.
- I have no bias with respect to the property that is the subject of the work under review or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation is not contingent on an action or event resulting from the analysis, opinions, or conclusions in this review or from its use.
- My compensation for completing this assignment is not contingent upon development or reporting of predetermined assignment results or assignment results that favor the cause of the client, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal review.
- My analyses, opinions, and conclusions were developed and this review report was prepared in conformity with the *Uniform Standards of Professional Appraisal Practice*.
- I have made a personal inspection of the subject of the work under review.
- No one provided significant appraisal, appraisal review, or appraisal consulting assistance to the person signing this certification.
- I have not performed any services regarding the subject property within the three-year period immediately preceding acceptance of the assignment, as an appraiser or in any other capacity.

## **ASSUMPTIONS**

This appraisal is contingent upon the following assumptions:

1. The legal description is correct, and title to the property is good and marketable.
2. The title to the property is free and clear of liens or encumbrances.
3. The property has responsible owner(s) and competent property manager(s).
4. The information furnished by others is reliable, but no warranty is given for its accuracy.
5. All engineering is correct. (The plot plans and illustrative material in this report are included only to assist the reader in visualizing the property.)
6. There are no hidden, unapparent conditions of the property, subsoil, or structures that render it more or less valuable. This includes any toxic waste or asbestos insulation that may be present. We take no responsibility for such conditions or for arranging for engineering studies that may be required to discover them.
7. There is full compliance with all applicable federal, state, and local environmental regulations and laws.
8. The property conforms to all applicable zoning and use regulations and restrictions.
9. All required licenses, certificates of occupancy, consents, and other legislative or administrative authority from any local, state, or national government or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.
10. The utilization of the land and improvements is within the boundaries or property lines of the property described and there is no encroachment or trespass.
11. We did not observe any hazardous materials, which may or may not be present, on the property. We have no knowledge of the existence of such materials on or in the property, nor are we qualified to detect such substances. The presence of such substances as asbestos, urea-formaldehyde foam insulation and other potentially hazardous materials may affect the value of the property. The opinion of value is formulated under the assumption that there is no such material on or in the property that would cause a loss in value. No responsibility is assumed for such conditions or for any expertise or engineering knowledge required to discover them.

## **LIMITING CONDITIONS**

This appraisal report is subject to the following conditions:

1. The distribution of the total valuation in this report between land and improvements applies only under the stated program of utilization. The separate allocations for land and buildings must not be used in conjunction with any other appraisal and may be invalid if so used.
2. Possession of this report, or a copy thereof, does not carry with it the right of publication.
3. No appraiser, by reason of this appraisal, is required to give further consultation or testimony or to be in attendance in court with reference to the property in question unless prior arrangements have been made.
4. Neither all nor any part of the contents of this report (especially any conclusions as to value, the identity of any appraiser, or the firm with which the appraiser is connected) shall be disseminated to the public through advertising, public relations, news, sales, or other media without the prior written consent and approval of the appraiser.
5. Appraisal Group of the Northwest and its associate appraisers and employees assume liability only to the client and only up to the amount of the fee actually received for this assignment.
6. Appraisal Group of the Northwest and its associate appraisers and employees are not responsible for any costs incurred to discover or correct any deficiency in the property. If a lawsuit is instigated by a lender, partner, part-owner in any form of ownership, tenant, or any other party wherein this report is used in evidence in the disposition of any and all awards, settlements, or cost, regardless of outcome, Appraisal Group of the Northwest and its associate appraisers and employees will be held completely harmless.
