

Online Leadership Training Roadmap

Determine if this training is for you

-Are you an emerging leader looking to improve employee retention, morale, and productivity through effective leadership? Make your job easier with well-managed employees?

-Are you looking for training with interactive videos, quizzes, worksheets, action plan, and tips for key components of leadership?

-Are you looking for simplified, time effective training designed to hold your attention?

Sign up and take the Leadership Fundamentals Course

-Sign up for a membership level that works for you, based on how long you intend to use the course and whether you want leadership coaching.

-The course is condensed into the most impactful leadership components, so it can either be completed at leisure, or in a classroom setting led by an instructor.

Practice new leadership skills in your workplace

-Utilize the action plan from the Leadership Fundamentals Course in your workplace.

Ask questions on the website discussion forum page

-Log in to the website and post any current leadership challenges you're experiencing in order to receive guidance and advice from the community.

Watch additional leadership skills videos

-Watch the additional bonus videos outside of the core Leadership Fundamentals Course to further your leadership skills.

Review progress against your action plan

-After several months, review your progress against the action plan developed on the Leadership Training Worksheet

-Consider watching the videos again in order to continue development.

-Continue to post any leadership challenges on the website's discussion forum page that you're looking for advice on.
