Operations Team Promotion Announcement

It is with great pleasure that I announce the promotion of the following employees on the Operations team. Please reach out to them individually to recognize their well-deserved promotions!

Chris Lussier has been promoted to Senior Director, Quality and Regulatory. Since joining MUSA in 2016, Chris has tirelessly worked to improve our Quality and Regulatory systems. He is a proactive and strategic leader that is constantly focused on improving processes. He has implemented too many process improvements to list. A few examples are the improved MyInstrument process that streamlines the purchase of special and custom instruments; the implementation of cosmetic standards for all instrument and loaner sets; a servicing operation in Memphis to reduce instrument purchase requirements; the management of all FDA filings for MUSA. Congratulations Chris!

Matt Barmer has been promoted to Director, Logistic Operations. Matt joined MUSA in 2015 as we were transitioning logistics support from Chicago to Memphis. His leadership in distribution operations was immediate and he quickly laid the groundwork to ensure distribution requirements have stayed ahead of our growth. Additionally, he implemented a supply chain planning department in Memphis and has built inventory models that have allowed us to proactively predict inventory requirements. He is a forward-thinking leader that makes a difference each day!

Janet Nadal has been promoted to Manager, Sales Operations. Since joining MUSA in 2015, Janet has become a go to person within the organization. Janet's can-do attitude and overall work ethic made for a seamless transition when the corporate office in Chicago, IL relocated to Franklin, TN in 2019. Janet's dedication to doing the right thing along with her work ethic are just a couple of the reasons that make her an asset to the organization. Please join me in congratulating Janet Nadal!
