

Is your old HPLC preventing you from taking your science to the next level?

Learn how your old system can save you money. Invest in the award-winning Thermo Scientific Vanquish UHPLC platform

Experience an innovative UHPLC that is versatile, easy to use, and robust enough to handle your most challenging separations with confidence.

- Fully integrated modular design with binary and quaternary pump configurations
- Easy lab integration and method transfer
- Simple control and data analysis with Thermo Scientific™ Chromeleon™ Chromatography Data System
- Unsurpassed retention time and peak area precision for highest confidence in data quality
- Equipped with virtually zero-dead volume Thermo Scientific™ Viper™ fittings for better separations
- Robustness that prevents downtime

Contact your local sales representative and learn more and how you can separate your science from the status quo and save with trade-in credits!
