Template for call between the Multiprofessional Team

| | | |
|----------|---|---|
| S | Situation This Sister/Staff NurseOn Ward I am calling about (Patient name). The problem I am calling about is Vital signs are: Blood pressure/..... Pulse Respiration Temperature MEWS and GCS..... | |
| | B | Background The patient is in hospital because His/Her normal condition is but their condition has changed in the last minutes Patient is now..... (give details of current condition) |
| | A | Assessment This is what I think the problem is/ I am not sure what the problem is but the patient is deteriorating/seems to be unstable. I have done |
| | R | Recommendation Will you come and see the patient/advise me of what action I should take now? Ask: Do you need me to do anything now? If a change in treatment is ordered then ask: How often do you want vital signs? If the patient does get better when would you want us to call again? |
