

TECHNOLOGY STRATEGY ROADMAP

UNLOCK STRATEGIC GOALS
WITH TECHNOLOGY

What is it?

Underpin and accelerate organisational strategy by leveraging existing, and defining relevant technology investments, with a clear relationship of priorities to support your goals.

The IT Integrity due diligence framework provides a detailed year 1 plan with an accompanying 3-5-year technology roadmap to transform your business.

The Technology Strategy Roadmap is a pathway to better business.

How can it help?

A Technology Strategy Roadmap delivers a thoroughly researched plan allowing for the Executive team to make informed decisions on products and systems best suited for the organisation along with a plan on how to deliver the best return on investment to stakeholders.

Detailed discovery across business objectives, strategy, process, and current technology landscape – ‘Where are we now?’

Review the outcomes of the investigation aligning to executive leadership and strategy – ‘Where do we want to be?’

Finalise roadmap with prioritized financial estimation across 3-5 years of activity to support and enable business outcomes – ‘How will we get there?’

Technology Roadmap Focused Recommendations

- Technology Foundation - Infrastructure
- Business Systems / Applications
- Data Management
- Integration of system / workflow
- ICT Management, Governance and Support
- Associated High Level Budget

Planning & Preparation

Gather details across current infrastructure, identifying leverageable investments, total cost of ownership and implementation dependencies

A typical Technology Strategy Roadmap will take 8-12 weeks.
