## Trillium DQ GAV & Geocode Table Availability Schedule

The dates shown in the following table represent the Global Address Verification (postal) table and Geocode table file availability schedule for various countries. This schedule applies to all versions of Trillium DQ (excluding Trillium Series 7, which is covered in a separate bulletin). Files are typically available for download by the *end* of the months listed below.

If you have questions about this schedule, see the [Precisely Support Website](#).

	Country	Monthly	Quarterly	Semi-Annually	Annually
AU**	Australia	X**
