

# Handwashing reward chart

Keep track of your handwashing activity.

**Pupil name**

A large grid of 20 rows and 20 columns of hand icons. Each hand is a simple line drawing with five fingers. The palms of the hands in each row are facing the same direction, alternating between left and right. Each hand has a number from 1 to 20 written on its palm, corresponding to its position in the grid. The numbers 1 through 10 are on the left hand of each pair, and 11 through 20 are on the right hand. The grid is designed for a counting exercise where a student points to each hand and says the number on its palm.
