

GUIDE TO ONLINE CONFERENCE PLANNER

Program is subject to changes and edits

LOG IN

From the planner page, click the “NCTM Sign In” button to log onto the planner using your NCTM credentials. If you do not have NCTM credentials, click the “Create Account” button to create a non-member account.

A screenshot of the NCTM Log In page. At the top, the NCTM logo is on the left, and the text "NATIONAL COUNCIL OF TEACHERS OF MATHEMATICS" is on the right. To the right of the logo is a search bar with a magnifying glass icon. Below the logo and text is a purple navigation bar with the text "MENU" and a dropdown arrow. The main content area has a heading "Log In". Below the heading are two input fields: "Username" and "Password". Below the "Username" field is the text "Your username is the email address NCTM has on file." Below the "Password" field is a link "Forgot Password?". Below the "Forgot Password?" link is a checkbox labeled "Keep me logged in". Below the checkbox is a blue button labeled "Log In". Below the "Log In" button is a section with three links: "Change my email address.", "Become a member", and "For more information, email nctm@nctm.org or call 800.235.7566." At the bottom of the page, there is a link "Not an NCTM member or need to create an account?" followed by a blue button labeled "Create Account".

CREATE A SCHEDULE

Once logged in, select “My iPlanner” from the top rail. To view the conference programming and create a digital preliminary itinerary, click “Add New” under My Sessions.

Please note: adding a presentation to your schedule does not reserve you a seat. Seating is on a first come, first serve basis.

The screenshot shows the NCTM website's "My iPlanner" section. At the top is the NCTM logo and navigation links: Home, My iPlanner, My Account, and Sign Off. Below the navigation bar is a banner for "NCTM Conferences and Events" featuring a compass icon. The main content area is titled "My Planner" and includes a message: "You have successfully signed into the system. Use the 'Sign Off' option to log out before leaving the site." Below this message are three buttons: "View Day Planner", "View All Days", and "Download". The section is titled "My Sessions" and includes the instruction: "Use this section to add Conference sessions to your Itinerary by clicking 'Add New'." There is an "Add New" button and a message: "No records found."

SEARCH

From the search screen, you can browse by keywords, session number, speaker name, dates, topic stands, grade-bands, and session types (session, burst, workshop, or exhibitor workshop) to find what you're looking for.

To view all presentations, leave all search criteria blank and click the “Search” button.

Search Sessions

Use the search options to find sessions based on any word found in the session title or description.

By Criteria - finds all sessions who match search criteria used below.

Text Search:

Session No.:

Speaker Name:

Date:

Category:

Session Type:

Search

TIP: If you only want to see PreK-2 presentations (for example), select the grade-band from the drop down menu under “Category.”

If you’re interested in a specific topic (calculus, for example), you can type that in under text search and the results will generate a list of all presentations including that key word.

Opening Session: Dreaming and Standing on Their Shoulders

Thu, 11/1: 5:30 PM - 7:00 PM
Session
90
Kansas City Convention Center
Room: 2301

Description
Fresh cutting open a "talking doll" at age 5 to see what made her talk, to helping her dad with their car as a child, Carden tells how these experiences led to her interest in the physical sciences and ultimately to her love for plane geometry in high school. She loved how the content of the geometry class related to physical situations, and she loved how the material was presented. It was then that Carden began to think of mathematics as a college major. She goes on to tell her story. How, even though that geometry class was her highest level of high school mathematics, she was able to graduate college with a degree in Mathematics Education which ultimately led her to positions as a "human computer" and an "Aerospace Engineer" at NASA where she worked for 40 years, for 25 years as a researcher in Sonic Boom Mitigation and finally in Senior Leadership.

Lead Speaker
Christine Carden, NASA, Retired
