PLATINUM POOL SERVICE CHEMICAL RECCOMENDATIONS

Salt Water Pools: Add **PEPPER**® every two weeks to prevent scale, limit pH fluctuations, enhance water clarity, keep phosphates in check, and increase salt cell life. (1/2lb per 10,000 gallons)

Tablet Chlorinated Pools: Add **E-Z POOL**® once a week. It contains: stable oxidizer, algae shield, clarifier, scale inhibitor, water conditioner and balancers. (2 scoops and 1 tablet per 10,000 gallons)

For ALL pools: Add **REVIVE!**® once a week for sparkling clear water. (1oz per 5,000 gallons)

Notes: _____
