How to Package Your Clippers

Please pack your clippers carefully in a suitable box with plenty of protective packaging around the clippers and filling the box.

All blades should be removed from the clipper. Any blades enclosed should be packaged separately within the same box and noted on the packing slip.

If sending clippers in their own plastic carry case, we recommend you pad the clippers inside the case using newspaper or similar. The plastic case should be tied at the handles to prevent opening and placed with more packaging in a larger cardboard box.

Please don't forget to enclose your packing slip (please include a separate packing slip for each set of clippers)

If you chose to use our DPD Pickup Shop service, you will receive a label by email.

If using another postage service, please use a tracked service with sufficient insurance as we cannot be responsible for any loss or damage in transit to us.
