

Google Slides Project

“My Autobiography”

This Google Slides project is a presentation that describes you and your life. Possible topics include information about your background (birthday, birthplace, history) and family, your interests and hobbies, talents, and skills, important past events and future plans, friends, career goals, and whatever else you want. Your grade will be determined by the neatness of your presentation, correct spelling and grammar, meeting all the requirements for the presentation, and the presentation to the class.

REQUIREMENTS FOR THE PRESENTATION

- You must have a title slide with a subheading that includes your name, and you must have a conclusion slide.
- You must have at least 15 other slides (17 slides total counting the title slide and conclusion). You may use more if you want.
- You must use at least **four different slide layouts** or more throughout your presentation.
- You should apply a **design template** to your presentation. Choose one that you like. **Template must be the same** throughout the presentation.
- Add clip art to some of your slides. Be conservative with this because too much clip art can make the presentation look bad.
- Add images from Google to correspond with your slides. (Ex: Favorite band)
- Use bulleted lists to show information and use brief paragraphs only. Most of your presentation should be memorized!
- Font and font colors needs to be consistent. The colors need to be easy to read on the design template you use and they need to follow the color scheme you are using.
- Some of your slides **must have transition** throughout the presentation.
- You must have **at least three real photos of yourself and/or your family** inserted into your presentation. Save these photos on your computer.

You will need to share your Slides presentation with mrs Lambert413@gmail.com and select “**can comment.**” Due the day of your presentation: _____

You will also show this presentation to the class using the projector. It is important that your presentation is easy to hear and understand. You will be graded on the presentation itself, your delivery, and your behavior during the other student presentations.

Remember: Don't write your whole entire presentation on Google Slides. Only bullet the important ideas and then fill in the rest of your information when you are giving your presentation.

Here are some ideas of things to include in your presentation. You may use items from this list and/or use items of your own. You are not limited to the list below. Please explain each idea.
