

## Summer Assignment Cover Sheet

**Course:** IB Chem 2 HL

**Teacher Name:** Joy McManus

**Assignment Title:** IB Chem 2 HL Summer Assignment

### Assignment Summary/Purpose:

This assignment has two purposes:

- 1) To prepare the students for their internal assessment for the course, their science fair project.
- 2) To review concepts already learned in IB Chem 1.

The summer review assignment will not be collected but it will be reviewed in class and an assessment on the assignment will be on the third class period of the year.

### Due date

Assigned during:	summer
Due Date:	Assessed on third day of class.

**Estimated time needed to complete the assignment:** Approximately \_\_6\_\_ hours

### Description of how the assignment will be assessed:

The science fair will be assessed in January. No guidance from the classroom teacher is permitted since I am the evaluator.

The students will receive a grade on the assessment given in class on third day and NOT on the summer assignment.

### Grade impact to overall course grade:

The assessment will count as a test grade on first quarter.

The science fair project will be worth 10 % of the grade for the course.

### Tools/resources needed to complete the assignment:

Your notes from IB Chem 1 for the review assignment.

Internet and scientific journals are needed for developing your science fair topic.
