

MPH Independent Integrative Learning Experience Statement of Completion Form

This document is used to certify the completion of an MPH Independent ILE project or thesis.

The following statement of completion and evaluation rubric were developed to document and ensure the quality of independent Integrative Learning Experiences (ILE) completed by UTHealth School of Public Health MPH students. Students and supervising faculty are encouraged to reference the evaluation rubric throughout the semester to ensure students are on track to successfully complete the project or thesis. The criteria provided in the rubric below are not the only criteria by which students are assessed as the supervising faculty are encouraged to provide a comprehensive assessment.

Students are required to submit this form after successful completion of the independent ILE to the Office of Academic Affairs and Student Services. Completion of this form is required for accreditation purposes.
