

National School Improvement Tool School Review Training Program

July 27 to 31, 2015

Introduction

The ACER National School Improvement School Review Program is based on local and international evidence about School Improvement. The five day program is designed to provide you with an understanding of how the *National School Improvement Tool* (NSIT) can leverage school improvement within your own contexts and in alignment with existing processes and priorities.

Days 1 and 2 focus on establishing clear and explicit understandings of the NSIT language and concepts and its relation to evidence. You will study how the use of NSIT and review processes within a school, drive school improvement.

Days 3 and 4 have a focus on the NSIT review process and development of a school review report. You will be involved in a real school review under the guidance of an experienced accredited ACER Lead Reviewer.

Day 5 involves you consolidating your experience of the NSIT School Review and moderating your learning, observations and understandings of the NSIT review process.

Venue

ACER Camberwell Offices 19 Prospect Hill Road, Camberwell, 3124
