

# MEET THE TEACHER

## The Basics!

---

*I am Dr Harris Cohen and this is my favorite quote:  
The Pessimist Sees Difficulty in Every Opportunity.  
The Optimist Sees Opportunity in Every Difficulty-  
Winston Churchill*

---

## My Childhood!

---

*I am an only child. I had a fantastic family life.  
When I got to school things changed and I was  
bullied a lot.  
Using that experience, I vowed to find the good in  
every situation.  
I take that attitude into the classroom.*

---

---

*I really enjoy teaching Leadership  
because it gives me an opportunity to  
explore the ability of excellence with the  
students.  
I also teach 6<sup>th</sup> Grade Science.  
I enjoy seeing the students get excited  
over science. I enjoy challenging them  
and making them think out of the box.  
Science is not just fact and figures, it is a  
methodology of thinking. If we are able  
to think this way-anything is possible.*

---

## My Favorites!

---

*My favorites are my  
grandchildren(9 and 11)*

---

## My Education

**I have a BA in Biology. I have a Masters Degree in Biology and Education.**

**I hold a Doctorate Degree from New York Chiropractic College**
