Each elementary school daily schedule varies depending on art, music, physical education and media schedules, intervention schedules and small group/assessment schedules. The sample schedule shows one example of a fully implemented day; schools will phase in their schedules with expectations for time spent in virtual learning increasing as students become comfortable with the digital tools. This phase in period will vary depending on the student's age and developmental level. While the details of each schedule will vary, all elementary schedules include virtual real-time instruction, completion of assigned tasks and non-screen time activities in all content areas included on the sample schedule.
