

RESEARCH PROJECT TEMPLATE

Important notes:

- discussion of the project will be the core of the candidate interview;
- before writing the project, please consider that the proposed activity should fit one of the research areas of the Dept. of Information Engineering, a description of which can be found here: <https://www.dei.unipd.it/en/research/research-areas>

1. GENERAL INFORMATION

| | |
|----------------|--|
| Candidate Name | |
| Project Title | |

| Subject area(s) of the project | Percent (%) |
|--------------------------------------|-------------|
| Applied Optics | |
| Automation | |
| Bioengineering | |
| Computer Engineering | |
| Electric and Electronic Measurements | |
| Electromagnetic Fields | |
| Electronics | |
| Operational Research | |
| Telecommunications | |

2. THREE YEAR PhD RESEARCH PROJECT

2.1. Introduction and State of the Art – max 3000 characters

2.2. Project Objectives – max 2000 characters

2.3. Research Design & Methods– max 4000 characters

2.4. Workplan over the 3 years, milestones, expected results - max 2000 characters

2.5. Relevant references (up to 20)
