

F-1 & J-1 Financial Update Form

This form is used to make changes to a student's financial information, as listed on the I-20 or DS-2019. You are required to report any changes to your funding **source or amount that exceeds 30%**. This can include changes to a scholarship, award, sponsorship, or private funds. Similarly, if your estimated expenses change dramatically, please use this form to request an update to your immigration record. This is especially important if you plan to travel or renew your visa, since you may be asked to document your current financial support. Supporting documentation is required for external funding and ISO will issue a new I-20 or DS-2019. If you are reporting changes to your University funding, certification from your academic program is required, by signature below.

If you are requesting other changes as well, such as a Program Extension or a new travel signature, please submit all relevant forms together. Processing of the new documentation usually takes 1 week.
