

Risk Assessment Form for Forest School Site

Description of the site: Area is owned by Rockwood Nursery School and is within their school grounds surrounded by high fences and gates. The site is used by the nursery school only. Large fauna cannot access the area, however smaller fauna such as cats, hedgehogs, foxes and rabbits can enter. The site is a small broadleaved woodland with a mixture of flora including ferns, bramble and nettles. There is no access for vehicles into the woodland area. The area has no running, still or boggy water sections. One side of the woodland has residential property and one has access to the school front garden and entrance. Debris occasionally comes into the area through this side. There is a seating area within the woodland area with tree trunk benches and surrounded by a fenced area and sloping shelter.
