## In order to use the PCILF program, you must:

1. Demonstrate adherence to the mitigation sequencing requirements of PCC 18E.30.050 (A) and 18E.40.050 (A).
2. Verify that PCILF credits are available.

## In order to secure credits, you must either:

- Provide a down payment equal to 10% of the full credit price. The 10% down payment is not a credit purchase (no credits will be transferred with the 10% down payment) and may occur before applicable permits have been obtained. A 10% down payment does not lock in the current price per credit. Payment of the 10% down payment gets you a “Letter of Intent to Sell”, which secures the required number of credits for purchase sometime within two years. **OR**
- Obtain all applicable permits, including permits/approvals required from the US Army Corps of Engineers, the Department of Ecology, and the Department of Fish and Wildlife, and pay for the full amount of credits.
