Vision and Eye Health Curriculum

New! Vision and Eye Health Curriculum incorporating Common Core Health Standards and English Language Arts Core Standards.

3K/4K, 5K and 5th grade lesson plans now available for free, digital download!

Vision & Eye Health Curriculum teach children about:

- The role their eyes play in everyday life
- How to keep their eyes safe and healthy
- Common vision problems they or their classmates may face
- Why it is important to visit the eye doctor after a vision screening
- Reasons glasses are important for the health and safety of their eyes

The Curriculum includes “How To” guides and resources for parents and teachers.

To register for your free copy of the curriculum, follow the directions below.

Visit our website at Wisconsin.preventblindness.org/educational-materials-teachers and click the Register button.
