

Construction and Demolition Waste – Management Log

Project Name _____
Prepared by _____

For Month _____

[illegible]

Notes:

1. Volume (cubic yards) may be used instead of weight if used for ALL amounts.
 2. Do not include soil or land clearing debris.
 3. "Recycled" refers to material that is diverted from a landfill and reprocessed into new products. "Reused" material is reclaimed, salvaged or otherwise used in its original form, either on-site or off-site.
- * These items must be listed on forms for LEED™ credit
