

ENGINEERING CONSTRUCTION REFERENCE SHEET

INSTRUCTIONS:

1	The Construction Reference Sheet must be completed in its entirety.
2	A Construction Reference Sheet must be submitted for each category/specialty code being requested. Feel free to make copies of this form as needed.
3	A minimum of four references must be supplied for evaluation for each category/specialty code. The maximum number of categories that can be approved is three. Dates of projects must be in the following format (mm/dd/yyyy).
4	The same references are permitted for different specialties so long as the agency/company supplying the reference can attest to that specific category of work.
5	References are required upon recertification. For existing categories, references can be for work completed within the past 5 years. If pursuing a new category, references should be for work completed within the past 3 years.
NOTE: The contract for each reference must be \$100,000 or higher.
